Before going into the Theatre Studio

Toilets

Before I go in to watch the performance, I can go to the toilet.

To get to the toilet, I will go up the stairs and turn left.

I can also go to the toilet during the performance.

Toilets

These toilets are for children like me. They are located opposite PIP's PLAYbox.

If an adult wants to use the toilet, they can use the toilet nearby.

Hand dryer

In the toilet, there is a hand dryer.

It makes a loud noise when someone uses it.

The noise will stop after a while.

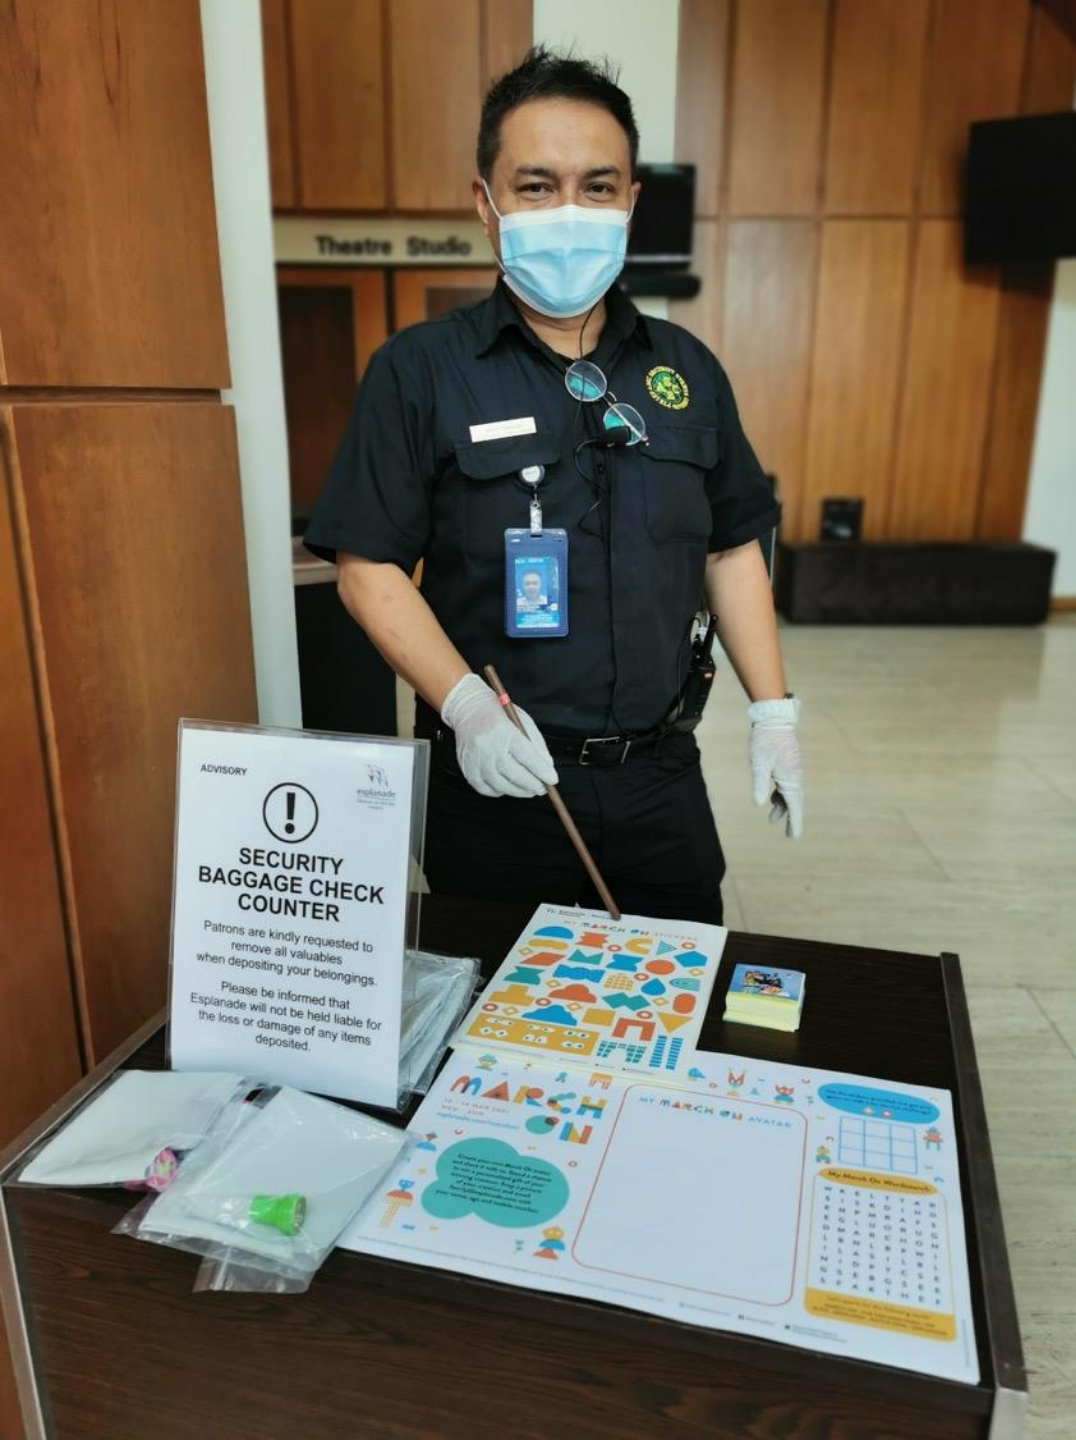

Ushers

Before I go into the Theatre Studio, ushers will greet me at the door.

Ushers are dressed in blue.

They will check my ticket.

Bag check

If I have a bag, a security officer will check my bag.

Before I enter the theatre

Before I enter the theatre, an usher will hand me a white sock.

I can use this sock to follow along to the movements of the actors during the performance.

Inside the Theatre Studio

The Theatre

This is the theatre.

A theatre is a room where a performance takes place.

The theatre will be a little dark. Some lights will be turned on to help me see.

Moving about

If I want to move or dance on the spot during the performance, that is okay.

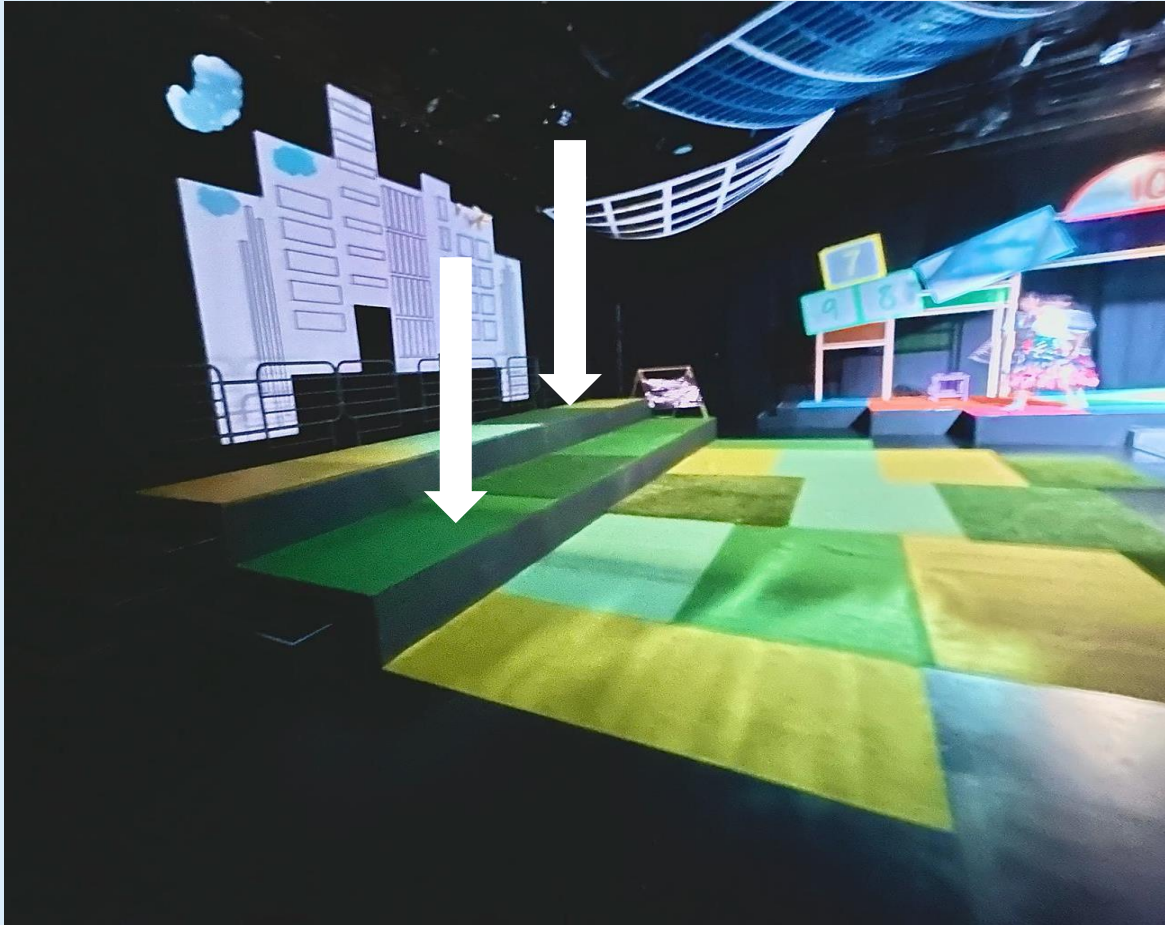

If I need to go to the toilet during the performance, that is okay. An adult or an usher can show me the way to the toilet.

Where do I sit

As I enter the theatre, there are two areas to sit at, the left or the right.

I can choose to sit on the floor, or I can sit on the higher platforms.

If I sit on the higher platforms

I should be careful when moving up and down the platforms.

I will not move up and down the platforms when the theatre is dark, and when I cannot see clearly.

Calm Space

Sometimes, I want to leave the theatre when the performance is happening and look for a quiet place. That is okay too. I can go out to the Calm Space.

This is the Calm Space. It is outside the theatre.

I can go back into the theatre anytime when I feel ready.

Ear Protector

This is an ear protector.

If it gets too loud, I can ask an usher for a pair. If I have my own ear protector, I can use it too.

Wearing it over my ears will help make the sound softer so that I can continue to enjoy the performance .
